GOOD AS **VERMONTS**

Oklahoma Granite Shows Up on Severe Test,

new bank is to be started. And coming TO BE FULLY AS GOOD

For Building,

cit yof Granite is now shaping up as facts. The resources are daily being developed and in a substantial way. This town probably has more matural resources than any town in the southwest and promises to be one of the biggest shipping points in the territory. To a stranger it is hard to tell what the pe sle of Granite fancy most-the red granite, the hard brick material, the oil or gas. Capital is right here on the ground working it all and it is not at all unreasonable to predict a population of years, and scener if a bir flow of gas or oil is struck. The present brick plant is not "hot air." as some say of it, but than any brick plant probably in the red granice. The brick machine is the Intest improved, manufactured by the American Machine company, Ducyrus, Ohio, with a capacity of 50,000 in a day and night run. Mr. W. C. Kurhn is here setting everything in first-class shape and informs your correspondent that by April I they will be making the ment pressed brick in the west, and it common talk by the business men that in the not very distant future the will be replacing their frame buildings rimmed with polished red granite. The crick company have erected immense sheds and have a number of teams and crapers taking the dirt, which is found shout three feet below the surface, uner the immense sheds, ready for immediate use. Your correspondent, horder to find how thick the strata o brick clay was asked the superinten 'We are down thirty feet and it is getting better the further down we go When the present plant demonstrates to these people the quality of brick they can make, it is believed that there will be a number of others put in and try to
